## **2016 ALL-PAYOR MODEL ENGAGEMENT**

### **Statewide Meetings to Share Best Practices**

#### **May 24, 2016: Statewide Leadership Summit - Transforming Healthcare & Partnering for Success**

Convened by MHA, Lifespan and Maryland National Capital Homecare Association, to inspire, enlighten and inform Maryland's health care innovators about how partnerships across the care continuum can spur quality improvement.

#### **September 23, 2016: MHA Statewide PQI Summit**

Summit featured Maryland's leading experts on initiatives that have proven successful to improve performance on Prevention Quality Indicators and other types of Potentially Avoidable Utilization.

#### **October 11, 2016: Statewide Behavioral Health Meeting on Hospital/Community Provider Partnerships**

Convened hospital discharge planners, emergency department staff and community-based behavioral health providers to highlight successful and effective partnerships between hospitals and community behavioral health providers, discuss issues and challenges to collaboration, share data and discussion actionable opportunities for strategic partnership, and network and build foundations for strategic alignment.

#### **November 1, 2016: Statewide Webinar on Care Alerts and Care Planning Learning Network**

First of a series of webinars to be convened by MHA and CRISP on Care Alerts and how these targeted, to-the-point messages are able to assist clinicians in acute-care settings like the emergency department. MHA and CRISP will facilitate the sharing of content, benefits, and resources for hospitals that are ready to develop and share care management data to reduce potentially avoidable utilization and improve care coordination.

### **MHA/HSCRC Webinar Series on Total Cost of Care Monitoring**

#### **Friday, December 18, 2015: Introduction of Total Cost of Care Data**

This session reviewed Maryland's performance in calendar years 2014 and 2015 on the Medicare hospital savings target and the Medicare statewide total cost of care guardrail. The data provided by the Center for Medicare & Medicaid Innovation to HSCRC on a monthly basis will be reviewed, along with the data source and validation process. Speakers will also present the detailed Medicare hospital and total cost per beneficiary calculations, including the underlying Medicare Part A and Part B components, and the hospital and non-hospital components of the total cost of care measure. Finally, the Maryland and national growth rates in hospital and total cost of care spending will be examined, including the trend from the base period to the current year-to-date 2015 performance.

#### **February 5, 2016: Accessing the Cost of Care Analysis**

This session reviewed the most recent performance under Maryland's all-payer model. In addition to that review, we will also examine the underlying data. HSCRC created a cost of care analysis that can be accessed via CRISP. This analysis reflects trends and results published in a tableau format. This information will be used on the webinar.

#### **March 23, 2016: Analysis of Non-Hospital Spending**

This session reviewed the most recent performance under Maryland's all-payer model. In addition to that review, we will also examine the underlying data, including the most recent analysis of non-hospital spending.

### **June 24, 2016: Analysis of Hospital and Skilled Nursing Facility Data and Total Cost of Care Data by County**

This session reviewed the most recent model performance, including hospital and total spending per Medicare beneficiary. We will discuss the components of the total spending per Medicare beneficiary and the trend of these components from the base period. We will also introduce data that reflect hospital and skilled nursing use, along with data analysis by county.

### **September 16, 2016: Hospital Primary Service Area Total Cost of Care**

This session reviewed the most recent all-payer model performance, including hospital and total spending per Medicare beneficiary. We will introduce the CRISP hospital primary service area total cost of care data, soon to be available in Tableau. We will also review potential uses for this data and demonstrate the various reports and analyses already developed.

## **Implementing Care Redesign Amendment**

### **July 13, 2016: Care Redesign Amendment Webinar**

Health Services Cost Review Commission and MHA hosted a webinar on the care redesign amendment to our all-payer model that was submitted to the Center for Medicare & Medicaid Innovation in early 2016.

**Seven additional webinars are scheduled (late Oct. – January)** on the recently approved amendment.

### **Week of September 5 and 12, 2016: Stakeholder Meetings**

HSCRC, HMA and MHA hosted seven stakeholder meetings on the Care Redesign Amendment for hospital executives and MedChi leadership.

## **MHA/LifeSpan Regional-Peer-to-Peer Meetings to Reduce Potentially Avoidable Utilization**

### **January 14, 2016**

Region: Frederick and Montgomery Counties  
Special Focus: Diabetes Management

### **November 7, 2016**

Region: Frederick and Montgomery Counties  
Special Focus: C.diff and Antibiotic Stewardship

### **March 29, 2016**

Region: Montgomery  
Special Focus: HAI Reduction

### **November 15, 2016**

Region: Greater Baltimore  
Special Focus: Using CRISP

### **October 11, 2016**

Region: Southern Maryland  
Special Focus: Diabetes Management

### **December 12, 2016**

Region: Washington Metro  
Special Focus: Using CRISP

### **October 19, 2016**

Region: Montgomery County  
Special Focus: C.diff and Antibiotic Stewardship

### **December, TBD**

Region: Western Maryland  
Special Focus: Diabetes

### **October 20, 2016**

Region: North Baltimore  
Special Focus: C.diff and Antibiotic Stewardship

### **December, TBD**

Region: Baltimore/Washington Metro  
Special Focus: Housing with Service
