

Novaplus Enhanced Supply Program

Personal protection equipment supply assurance during times of increased utilization

About Novaplus

Novaplus, the Vizient® private-label brand, delivers additional financial value, quality and support on products that you use most often. The brand includes a broad range of product and service categories, from pharmaceuticals to medical-surgical to purchased services offerings. Some of the nation’s most respected health care systems turn to Novaplus as their first choice for quality products and services.

About the Novaplus Enhanced Supply Program

The Novaplus Enhanced Supply Program contracted suppliers provide additional inventory of essential products to mitigate supply disruptions and demand surge. Contract terms provide greater predictability and sustainability to drive continued production and supply resiliency. Production transparency requirements increase visibility to predict and further mitigate anticipated supply disruptions. By purchasing through Novaplus Enhanced Supply Program, health care facilities also receive expanded value and benefits built on the foundation of the industry’s longest-run private label program.

Gain the additional PPE supplies you need through the Novaplus Enhanced Supply Program

The Novaplus Enhanced Supply Program helps you improve supply reliability and reduce product shortages for your most requested personal protection products, such as surgical masks, face shields, respirators, isolation gowns, exam gloves, shoe covers and bouffant caps. Program suppliers provide protection with additional inventory of personal protection equipment (PPE) when demand spikes not only related to COVID-19 needs, but also future needs such as possible COVID-19 surges, flu seasons, natural disasters, etc.

Novaplus® and Encompass (NE0010) have partnered to bring you a PPE program that offers supply assurance for disposable AAMI level 3 isolation gowns, bouffant caps and shoe covers.

Product code	Product description

VFT420B	Shoe cover, plain, XL, 100/Bag

Program details

A part of the long-running private label program, Novaplus, this enhanced sourcing program delivers additional inventory of essential products and medications that, if not available, could threaten a hospital's ability to provide immediate and high-quality patient care.

- Members pre-commit to purchase 90 days of inventory based on calculated needs derived from both pre- and post- COVID-19 ordering and consumption patterns with a four-year volume commitment.
- Program participation is optional. Members are not required to participate in the Novaplus Enhanced Supply Program in order to purchase Novaplus products.
- Supplier determines the cost of holding inventory and member pays for warehousing separately.

- Supplier warehouses the inventory geographically across the United States.
- Supplier participates in Vizient's supply resiliency solution for these categories for supplier pedigree and inventory visibility.
- Member has visibility and control of their inventory through the program.
- This program is offered to our members at no additional charge.
- Member must submit spend data (ADS) to participate in program.
- Enrollment via Vizient Catalog is required for participation.
