

# COVID-19: Spread the Science, NOT the Virus

## Clinical Lessons from the Northeast Surge

Tuesdays at 4:00 pm ET from July 21 - September 29, 2020

Join the Northeast Hospital Associations and the Jefferson College of Population Health weekly to learn about approaches to and solutions for the clinical dilemmas that arose during our surge.

Webinar sessions are limited to the first 500 attendees. Recordings of the webinars will be made available to all hospitals on the [Jefferson Digital Commons](#).

### September 8: Coordinated Response and Business Recovery in Rural Health Care Systems | [Register Now](#)

Leaders from Northern Light Health will share their experiences and lessons learned during COVID-19. A response that started with a concerned email from their supply chain leader quickly developed into a coordinated, state-wide response for a complex, full-service, rural healthcare system that 10 member hospitals, long-term care facilities, laboratory, medical transport, home care, retail pharmacies, and more.

### September 15: Transitions of Care | [Register Now](#)

The pandemic has highlighted coordination challenges across the continuum, requiring hospitals and post-acute care providers to communicate and collaborate more than ever before on evolving issues to ensure the safety of patients and staff. This webinar will feature a discussion among Massachusetts acute and post-acute care providers regarding their strategies for managing through a pandemic and lessons learned, and for managing future surges.
